Bulletin #2016-002 17 – February - 2016

Subject:
Rulebook Errata

Overview:
1. Replace Article 10.2.B.16 with the following.

16. Electrical Equipment

The original battery and alternator may be replaced by another commercial automobile unit of equal or larger capacity provided the location remains unchanged. The minimum weight for a battery is 28 lbs. The make is unrestricted.

Engine and chassis wiring harnesses are free as long as the OE windows, heater blower motor and electrical equipment required under Article 6.4 still function.

2. Replace the table is Article 10.2.F.1 with the following.

Class	Inlet Restrictor Size
B-Spec	None with boost limit
Super Production	34mm x 3mm
Group 2	N/A
Group5	N/A
Open	34mm x 3mm
Open (Driver in Seeded Draw)	34mm x 3mm with boost limit
National Limited Open	34mm x 3mm or 36mm x 3mm with boost limit

Rationale: These changes were made in Rule Bulletins 2015-003 and 2015-004 respectively and were unintentionally omitted from the 2016 Performance Rally Rules.

Questions regarding this bulletin received by Rally America from licensed Drivers and Co-Drivers will be answered in writing.
